

## Cor-Pak® 1-MUL/8-MUL Pouches, Patented

### DESCRIPTION

Cor-Pak® 1-MUL/8-MUL Pouches contain Vapor phase Corrosion Inhibitors (VpCI®) powder and provide corrosion protection for ferrous and non-ferrous materials within a package. The VpCI® vaporizes, escapes through the pouch's breathable Tyvek®\* membrane, and then adsorbs on all metal surfaces in the enclosure, forming a protective corrosion inhibiting molecular layer. Cor-Pak® 1-MUL Pouches are approved for military use under NSN# 6850-01-470-2737.

### PACKAGING & STORAGE
